

About Us

Saturday, 26 January 2008

Last Updated Monday, 28 January 2008

We are a Finnish software company with a global presence. Our customers include private persons and organizations all around the world. The main market areas are Finland and United States, other important market areas include Central Europe and India.

We develop practical and useful software for our customers and ourselves. All products are used in daily activities by us and our customers.

The company name is a combination between 'software' and 'bar'. The word 'Softa' is sometimes used to mean 'software' in spoken language here in Finland.
'Bar' in Softabar just sounds nice :-)

We hope that you will find our software useful.

(Espoo, Finland, February 2005)
